

This is some sample document, which does not make it through Adobe LiveCycle Server RightsManagement.

LiveCycle-Server 8.2 gives me this error, when applying an RMS-Policy working for other PDF-documents:

```
2009-07-29 15:09:09,728 ERROR [com.adobe.idp.Document] DOCS001: Unexpected exception. Custom
DocumentWriterEx.onDisconnect() throws: java.lang.NullPointerException.

```

What might be the reason for this?
